ROQUETTE, *Offering the Best of Nature*, is one of the world's most advanced producers of starch and starch derivatives by transforming renewable resources corn, wheat, potatoes and peas into an extensive line of high quality ingredients for a wide range of food and non-food industries throughout the world. ROQUETTE is also a leading expert in polyols, pyrogen free raw materials and dry sweeteners.

A leading global manufacturer of healthy ingredients and solutions for markets such as confectionary and chocolate, baked goods, beverages, fruit products, dairy products, savory snacks, meat and fish products, sauces, dressings and soups as well as dietary supplements, and more. Our solutions provide our customers with nutritionally balanced, great tasting choices for consumers featuring NUTRALYS® all natural, non-allergenic pea protein, NUTRIOSE® soluble fiber, and SweetPearl™ crystalline maltitol.

NUTRALYS® pea proteins are functional vegetable proteins with an outstanding nutritional value. A non-allergen protein, NUTRALYS® is highly digestible and low in saturated fat. NUTRALYS® has an excellent water/fat binding capacity, good dispersibility and low viscosity. www.pea-protein.com

NUTRIOSE® soluble fiber has great taste and texture, aids in sugar and fat reduction, provides extended energy release, fiber enrichment to optimum levels, has a high digestive tolerance and an ease of use for innovation or reformulation. NUTRIOSE® soluble fiber is a range of food dextrin with a high fiber content of up to 85% (dry substance) derived from either corn or wheat. www.nutriose.com

SweetPearl™ maltitol is a sugar-free bulk sweetener and is used in formulations to easily replace sucrose. In food applications, SweetPearl™ maltitol is virtually as sweet as sucrose and offers the same useful functionalities – bulk, texture, mouth feel and shelf-stability. SweetPearl™ has a low caloric value, safe for teeth and can contribute to glycemic control. SweetPearl™ offers nutritional benefits that match consumers' increasing demands for healthy products. www.sweetpearl.com

Roquette America, Inc. is also home to Roquette® University. Roquette® University offers complimentary workshops to provide in-depth technical knowledge, product development expertise and application demonstrations on the use of ingredients and excipients for the food, beverage, animal healthy, nutraceutical and pharmaceutical markets. Contact us for a complete schedule of courses. Roquette® University is located in Roquette America's Innovation Center in Geneva, IL.

The Roquette group has production sites in Europe, Asia and North America while marketing its products in more than a hundred countries; Roquette offers levels of security, supply and service quality that is identical throughout all sites. Let us share our expertise in the creation of new and existing formulations.
