John Chambers CSIFT Testimonial

“When I first started my career in the food industry I was told by my manager that I must join Chicago Section IFT if I wanted to get connected key players in the industry. Within a short time of volunteering in CSIFT I was able to get connected to a lot of folks in the industry.

What I didn’t realize was there would be so many great friendships that came out of it that will last a life time. I bought into the passion everyone had to help one another and to promote food science and technology. I have volunteered in many committees including; Hospitality, Suppliers Night, House, New Professionals, Program, and Long Range Planning.

With the opportunity the past few years of being an officer and now the Section Chair, CSIFT has really helped me with my leadership skills. CSIFT has truly helped me in my career in so many ways. Getting involved with CSIFT was one of the smartest decisions I have made in my professional career.”
