

Proud Tradition, Evolving Future

Since 1967, food companies worldwide have trusted Silliker, the leading international network of accredited food testing and consulting laboratories.

Entrepreneurial Spirit

Silliker, a Merieux NutriSciences Company, has grown from a single laboratory to a global presence in 18 countries with over 75 locations throughout North America, South America, Europe, the Middle East and Asia Pacific. Dr. John H. Silliker, an eminent microbiologist, founded the company in Chicago Heights, IL.

Core Competencies

Silliker has long been dedicated to staying on the forefront of technological advances in food science and delivering accurate, timely and reliable results to clients. Silliker helps manufacturers, processors, distributors, restaurants and retailers build a safer global food supply through our core competencies:

- **Microbiology Testing**
 - Quantitative
 - Qualitative
- **Chemistry Testing**
 - Nutritional Labeling
 - Contaminants
 - Veterinary Residues
 - Heavy Metals
- **Consulting**
 - Data Management
 - Environmental Monitoring
 - Crisis Management
- **Auditing**
 - GFSI Certifications
 - Distribution Centers
 - Packaging
- **Research**
 - Process Authority
 - Sensory / Consumer
 - Clinical Studies

 - Food Microbiology

Through these complementary services, Silliker meets the local needs of clients with international expertise. Globally, our historic standing in food microbiology testing is matched by our reputation in analytical chemistry. **Nine out of 10 of the world's leading food companies trust Silliker to protect their brands.**

Choose Confidence, Choose Silliker

Silliker champions quality systems and results that are documentable and reproducible. Our global commitment to operational excellence helps our valued clients protect brand image, ensure the timely delivery of products that match customer requirements and meet quality and safety specifications. Accredited to ISO 17025, an internationally recognized benchmark, our labs are reinforced by an extensive quality system that incorporates internal control samples, external matrices, and reputable proficiency programs. Silliker understands the high stakes in food safety where preparation, execution and client service must be flawless.

**FOOD
SAFETY &
QUALITY**

Welcome . . .
