Navigating Our Water Future: A Course for Industry

Awards Luncheon - Thursday, May 16

Over the past 100 years, the consumption of fresh water around the world has increased by more than 500%. The United Nations estimates that by 2025, two-thirds of the world's population will live in water-stressed areas. CEO of Ecolab, Doug Baker will discuss global water scarcity and management, and why this matters for business.
