2011 Scientific Program Call For Proposals
Opens October 1, 2010

Get started today by downloading the [topical priorities](#). Full [submission guidelines](#) are available now.

Learn from IFT10 Scientific Program Recordings

Recordings are available as individual sessions or a full conference audio library basis, via MP3 download and DVD-ROM. Visit [Resourceful Recordings](#).

Upcoming Programs:

Food Allergens: Regulations, Risks, and Controls Online Course

Begins October 29, 2010

Featuring live Q&A sessions with content experts, this course will provide an overview of the identification of allergen control practices for product developers and QA specialists. Plant managers will benefit from information on how to motivate employees to incorporate allergen sensitivity into their job activities.
